Why Study Psych Abroad?

"Studying abroad allowed me to immerse myself in a different culture and truly experience it. It also allowed me to push my own boundaries and challenge myself. Knowing I could live comfortably for a year in Uruguay, I am more willing to take risks and more open to consider professional opportunities in international contexts. My advice to students who are considering studying abroad is *do it! Just do it.* Even if it's scary at first, it is so rewarding and it challenges you to overcome struggles and to realize you can do it."

-Shawn Mendez

*Psychology and Spanish major
Studied abroad for a year in Montevideo,
Uruguay*

Psychology Study Abroad

Psych Major Specifics:

When is the best time to study abroad?

While every student's situation may vary, psychology students ideally study abroad during their junior year, upon having completed both PSY 310 and 311 at UNCG during their sophomore year. However, finding the most appropriate program as well as the best time to go may often depend on academic background, interest areas, and pre-requisites. Begin planning your study abroad experience early.

What courses should I take abroad vs. at UNCG?

The department highly encourages students to take a variety of PSY, GEC, and elective courses while studying abroad. PSY 310 and PSY 311 must be taken at UNCG and we recommend taking them in consecutive semesters. It is also recommended that students complete these courses prior to studying abroad, although it is not required. PSY 519: Special Topics in Psychology is a flexible option that can be taken abroad for credit. Students can also consider taking PSY 433: Research Experience in Psychology while studying abroad, which allows students to gather research experience in a multicultural context. PSY options are flexible and transferrable, so students can take a wide range of elective and PSY courses and still *graduate on time!*

Do I need to speak a foreign language?

While studying abroad is an ideal time to complete foreign language requirements or learn a new language, most international programs offer extensive coursework in English available to exchange students.

Other benefits...

Simply studying abroad in any country waives a Global marker, and depending on the program, a Global Non-Western marker. Speak to an IPC adviser for more information.

Can I Afford It?

YES! On semester or year-long exchange programs, students pay regular UNCG tuition and fees. Housing and meal costs are typically equivalent to a semester in residence at UNCG. Any financial aid received at UNCG can be applied to the program costs. In addition, students are eligible to receive travel grants to help offset the costs of airfare. Set up a meeting with an IPC adviser to learn more.

Getting Started!

IPC is dedicated to finding the right program for each student, and our huge array of partner universities allows us to do just that. **Call (336) 334-5404 or stop by 207 Foust to schedule an appointment with a study abroad advisor.** This meeting will provide you with more information on appropriate programs, finances, application procedures, and more.
